

SUSTAINABLE SOLUTIONS

SALES ENQUIRIES | pfb.info@srf.com

All grade products conform to EC 10/2011 directives, REACH specifications and US FDA regulations for food contact applications.

SUSTAINABILITY SOLUTIONS

SUSTAINABILITY AREA	SOLUTION	PRODUCT	KEY FEATURES
Source Reduction	Down Gauged Films	PET Films (Plain, Corona & Coated)	Available in 7.8, 08, 09 and 10 micron (Transparent & Metallized)
		BOPP Films (Plain Corona)	Available in 10 & 12 micron
	Shelf Life Extension	Ultra High Barrier Metallized PET & BOPP	"Available in different barrier range. Replacement of Alu Foil in laminate structures"
	Efficiency Enhancement	Anti Static Coated PET	Faster processing enables reduction in carbon footprint at converting equipment
Climate Positive Replacements	Heavy Metal/ Chlorine Footprint Reduction	Twist PET for Candy Overwrap	Replacement of PVC. Efficiency enhancement on wrapping machines
		Organic Barrier (Transparent) Coated PET	Replacement of Chlorinated (PVDC)
		ALOX PET	

SUSTAINABILITY SOLUTIONS

SUSTAINABILITY AREA	SOLUTION	PRODUCT	KEY FEATURES
Circular Plastics Economy	Post Consumer/ Industrial Recyclate Content Consumption	12 Micron upto 90% PCR/PIR PET Film [Printable (Corona, Chemical), Metallized High Barrier]	"Reduced Virgin Polymer Consumption by 90% Promotes Post-Consumer/Industrial recycling rates for film production"
	Single Family Solutions	Heat sealable PET films (Transparent & Metallized)	"Available with lock seal, Sealable peelable and with Antifog variants Offers barrier as well as sealant solution"
		High Heat Seal Strength PET Film	Replacement of thick gauge PE films in PET Laminate Structures
		Thermally Resistant BOPP Film	Available in 4 variants (TR, STR, HROB, SCL C01)
		Wide range of Metallized BOPP Film	Available in 6 variants with different Barrier range. OTR: 0.1-120, WVTR: 0.1-1.0
		BOPP Film with modified COF/Slip, SIT & Seal Strength	Available in 3 variants (SPW C01 T02, SCL C01, SOCL A09)
